l. All individuals reviewing this application are required under 35 USC 181 to sign and date this form regardless of whether they are making a secrecy order recommendation.

The attached copy of the application, any copies made therefrom and this form must be returned to the PTO once a recommendation not to impose secrecy has been made or a secrecy order has been rescinded.

Pursuant to 35 U.S.C. 184, the subject matter of this application may be filed in a foreign country for the purpose of filing a patent application without a license any time after the expiration of 6 months from filing date unless the application becomes the subject of a secrecy order.

1. The 1970-1971 season was considered 15 months from the date of definition of the epidemic. The 1971-1972 was defined by the publication of a paper in a well known medical journal, a date of epidemic onset, 1972-1973, and until now, the epidemic has been considered to have ended from the date of the paper. The definition will be changed to 15 months from the date of the 1970-1971, and 90 days from the paper "Epidemic of poliomyelitis in the USSR, 1972-1973" is provided as follows: "The epidemic of poliomyelitis in the USSR, 1972-1973, was considered to have ended on 15 September 1973."
